NANO - 1 in a million

Bright and airy, this triple garage home is not only functional, but also has a wonderful vibe. The property was designed to take advantage of the sunshine. An open staircase, dining room, family room, nook and kitchen all share the same space, only to be defined by itself. This flows allows a ton of natural light to envelope these areas through the large windows along the back of the home. Towards the front, there is an enclosed den/office, mudroom, pantry and butler's pantry. Upstairs includes a bonus room, three large bedrooms, laundry room, bathroom with separate entrance to the shower and an truly exquisite Master Suite. The Master comes with tray ceilings, large windows and a spa-like ensuite with a large window overlooking the tub.
