

9 STEP BUILDING PROCESS

We Build Relationships

The relationship begins here. We'll listen, really listen, to your vision. Then we'll ask the right questions.

The Proposal Details

You share your vision. We'll offer a guiding hand to make sure your criteria and budget are respected.

Land Acquisition

The perfect lot for the perfect home at the perfect price - we'll scour and shop until we hit the mark.

The Contract

When you're happy, we'll all sign on the dotted line, making the proposal an official contract.

Drafting and Design

The one-on-one time you need to make sweeping changes and tiny tweaks to craft your vision of the ideal home.

Interior Design

You'll work with our interior design experts to choose the right finishings and bring your custom aesthetic to life.

Constructing the Dream

It all comes together in this phase. We'll keep you posted at every phase of the building process, so you can enjoy a stress-free experience.

Welcome Home!

Take possession. Move in. Celebrate. Make memories.

Follow-up

We build relationships and experiences. That means we hold ourselves accountable to 3-month, 6-month, and 1-year check-ins to ensure everything is running smoothly.
